Profile Park, T50 and Primary Data Centre Locations

Directly on Dublin's Fiber Network

Diverse Route Access for Fiber and Power

Centre of Ireland's Digital Cluster

Google Choose Profile Park

"We're very happy to continue investing in Ireland and to build out our presence here even further. The new data centre will be one of the most energy-efficient in Google's global fleet. This investment further strengthens our presence here, and I'd like to thank IDA Ireland for the assistance they gave us in selecting this site." John Herlihy, head of Google Ireland
